For slightly over a year (5 quarters), from October 1980 to the present, we are averaging nearly 4,600 pages per quarter of manuscript review -- all this is now on an up trend -- and at rate of that up trend, FY-1982 will bring manuscript review page total into the 20,000's.

Manuscript review totals can be irregular at any short period of time but overall it is steady enough and growing.
